

Strengthening Our Leaders (SOL)

The Strengthening Our Leaders (SOL) program is a local program that provides educational enriching opportunities for youth ages 6-14 with existing SOL (Standards of Learning) programs. This includes tutorial support and assistance for SOL preparation, test-taking skills, math, science, reading, language arts, and computer skills.

The SOL program is partnering with the Dunbar Alexandria-Olympic Branch of the Boys and Girls Club. During this interactive program, elementary and middle school students receive tutoring and standardized testing preparation lessons. All students are pretested to identify their current levels and needs. Volunteers who specialize in Elementary and Middle School concentrations assist the students with homework and grade specific activities. The program meets twice a week at the Club.

For additional information about the program, please contact sol@dstnovac.org.
